

Completely revised and expanded, the second edition of Case Studies for Understanding the Human Body is the ideal resource for students enrolled in any Anatomy and Physiology or Human Biology Course. The case studies work well in a cooperative learning setting where students work together to review and solve open-ended questions associated with each case. The exercises are also perfect for individual homework assignments. The discussions cover common disease of all major organ systems and present related topics that are often part of course discussion. New topics for the second edition include:

The System of Mineralogy of James Dwight Dana and Edward Salisbury Dana Yale University 1837-1892 Seventh Edition, Differential Geometry, Lie Groups, and Symmetric Spaces (Graduate Studies in Mathematics) by Sigurdur Helgason (2001) Hardcover, Phases of corruption in Roman administration in the last half-century of the Roman republic ..., The Passionate Organization: Igniting the Fire of Employee Commitment, Animal Talk: Barks, Growls, Hisses, Howls (Childs World Discovery World : First Steps to Science), Report of the Committee of Arrangements Appointed by the Common Council of the City of New York: To Render a Suitable Tribute of Respect to the Memory ...
