

When Celeste becomes bored hosting tea parties with her imaginary friends, she finds an old radio that enables her to escape to a world where she can help plants to grow. With her new friend, Nick, she soon learns that nature develops faster and animals are healed better when they work together. What could happen if they throw a huge tea party to bring together the entire neighbourhood? This delightful story brings back to life an ancient World Indigenous philosophy through the friendship of Celeste and Nick as they discover much more can be achieved together than on their own.
