

How Children Understand War and Peace is a landmark book that examines these two vital questions and provides a solid framework on which to build answers. Written by an international panel of experts in the fields of developmental, social, and educational psychology, How Children Understand War and Peace presents a collection of the most current thoughts and insights into how children and adolescents develop an understanding of war, conflict, and peace. Based on research studies done in Australia, Canada, Finland, Holland, Israel, Portugal, Northern Ireland, Sweden, and the United States, this comprehensive volume presents evidence that perceptions of war and peace formed during childhood relate directly to adult perspectives on these critical issues. The contributors present persuasive evidence that our knowledge about how youngsters from around the globe develop and form worldviews can be used to create educational programs that teach children peace education, conflict management, and conflict resolution.

Advances in Econometrics, Little Donkey Close Your Eyes, The Early Fathers Of The Reformed Church In The United States, Christianity Without Religion, Great Sea Battles, Beyond Cedar, Rutledge, Billy Bean Goes Fishing, A Comparative History of Literatures in the Iberian Peninsula: Volume II (Comparative History of Literatures in European Languages),
