

P.A. Bennett's approach is a clear and concise way to building confidence. Each chapter has a practical application. Everything is clearly explained. It's very easy to understand and perhaps easier to apply. The approach simply makes a lot of sense! Testimonial: I think you have captured some really insightful, awesome information for players at any age. I know that these are some of the holes I experienced in my player years, as most of the emphasis was on mechanics, not the thought process of how to play the game smarter and what you actually focus on. I think a lot of players do some of the things (breathing, relaxation) naturally, out of necessity, but I think that pointing it out as something you should consciously do makes it even more powerful! I also loved the see the ball thing. You hear coaches say that all the time, but your explanation of it actually tells people HOW to do it! Just fantastic! I hope you do continue to write books, as you have a wealth of knowledge to share, and your stories are interesting to read. I would love to be a part of your next project, and I wish you much success with this one! -Stacey, Amazon Best Selling Author and Editor
