

Don't be overwhelmed by college planning. Overcome it! The junior year is the most critical year in the college admissions process. In an easy week-by-week, what's-to-do-when format, The Christians Guide to College Admissions (Junior Edition) takes students through the processes and pitfalls of college planning. Through weekly assignments, students manage the practical tasks of college admissions and gain valuable insights about standardized testing, college identification, financial aid, and much more. Most importantly, however, with devotions that correspond to the week's task, students discover how they can glorify God in the college planning process by focusing on Him and allowing Him to lead the way.
