

In response to recent world news headlines, The Secret of the Talpiot Tomb is a full-color text and visual presentation of the most compelling evidence for Jesus's victory over death. Written by research professor Gary Habermas, considered by many to be the world's leading apologist for the historicity of Jesus's resurrection, this case for Christ's immortality is placed in the context of new claims made about the alleged bones of Jesus having been discovered in the so-called Talpiot tomb located in southeast Jerusalem. Habermas examines the controversial case with exceptional clarity and precision, showing a preponderance of evidence against the Talpiot Hypothesis and a compelling argument for Christ's bodily resurrection.
